

## 2013 Michael Howe

Michael was a good friend who died after a battle with pulmonary fibrosis.

A quiet and mild mannered man -- I met him when he asked me a few questions about the British train that I was running on the layout at Latonia.

Michael was briefly with the QCN and was a regular at train shows.

His home layout at his home in Mason can be seen on **Flickr** at:

His **You Tube** videos concerning his pulmonary fibrosis are particularly moving:

Please share these with anyone that suffers from this debilitating disease.

RIP my dear friend.

Sincerely,

Stephen
